English Language Skills Enhancement (ELSE) is a program designed for current and newly admitted WFU professional and graduate students who seek to enhance their spoken and written language abilities in order to better prepare for the academic, social and professional expectations of Wake Forest University.

ENHANCED ACADEMIC EXPERIENCE:

We understand that complete social, cultural and linguistic immersion in a classroom setting in another country can be difficult. We developed this program with the goal of facilitating non-native English speaking students’ acclimation to the cultural differences of a U.S. classroom. The program focuses on cross-cultural communication skills and enhancing speaking, listening, pronunciation, reading and writing skills.

The ELSE Program does not grant academic credit.

SOCIAL EXPERIENCE:

It’s not all intensive practice, we’ve also built in social activities to help you build vocabulary and confidence in social settings. Planned excursions around the Winston-Salem area, such as baseball games and a tour of Old Salem provide the opportunity to practice English in relaxed and comfortable environments.
